Notice of Product Obsolescence

This document serves as formal notification that Spectrex is discontinuing production of the FS-1300 Single IR Flame Simulator with immediate effect.

<i>Affected Product</i>		<i>Replacement Product</i>	
Model Number	Description	Model Number	Description
FS-1300	Single IR Flame Simulator	FS-1100	IR3 Flame Simulator

The FS-1100 Flame Simulator serves as a functional replacement for the discontinued model. The FS-1100 is to be used to activate 40/40R Single IR Flame detectors in addition to its use for activating 40/40I and 40/40UFI IR3 detectors. Any FS-1300 models requiring replacement under warranty will be replaced by the FS-1100 model.

We appreciate your understanding and assistance in helping us minimize the impact of this product discontinuation on your company. We look forward to continuing to support your company's flame and gas detection requirements in the years to come. If you have any questions with respect to this notice, please contact your local Spectrex representative.
